

# The Northern Colorado Chapter of ARMA

Presents:

## CULTURE CHANGE AND RIM

### About the Presentation:

Is your change management delivering the adoption you need? Change management needs to account for an organization's culture and be tailored to the specific change to be effective. The speaker will use his experience on records and technology projects to show you how to address two important accelerators of change. In this session, you can expect lots of practical real world examples such as how to help people transition from paper to electronic records. These examples will enhance your change toolbox so that you can drive the use adoption and productivity you need for your records initiatives to be successful.
